Subject: Newtown Creek: Further Extension of Negotiation Period for Dispute Concerning the Baseline Ecological Risk Assessment

EPA is writing in connection with the dispute by the Newtown Creek Group of respondents (NCG Respondents), disputing the requirements of EPA's e-mail of December 8, 2016 which directed that Anchor, on behalf of the respondents, provide to EPA by January 23, 2017, a modified Draft Baseline Ecological Risk Assessment ("BERA") responsive in full to EPA comments transmitted by the December 8 email. This dispute was invoked by letter dated December 22, 2016 (sent to EPA by email on December 22) on behalf of the NCG respondents, pursuant to the "Administrative Settlement Agreement and Order on Consent for Remedial Investigation/Feasibility Study" (AOC) at the Newtown Creek Superfund site.

By email dated January 20, 2017, EPA extended the Negotiation Period for the dispute until close of business on February 23, 2017.

Please be advised that pursuant to Paragraph 65 of the AOC, EPA has further extended the Negotiation Period for the dispute until close of business on Tuesday, March 21, 2017.

By selecting this date, EPA acknowledges ongoing technical conversations between EPA and AQ, and allows for the next technical conversation to be scheduled on or about March 7, 2017, which is two weeks after EPA's most recent submittal of information to AQ as part of these ongoing technical conversations. This date also allows for an additional call to discuss issues remaining with regard to the dispute, to be scheduled by March 14, 2017.

The dispute will also address the date required for the submittal by respondents of an approvable BERA responsive to all EPA comments. Thus, in accordance with Paragraph 66 of the AOC, respondents will be required to submit the BERA on the date determined by agreement reached during the Negotiation Period for the dispute, or failing such agreement, on the date determined in accordance with EPA's decision on the dispute.
